She has 2+ years of experience at Nokia, working on complex product ecosystems. Skilled in transforming technical requirements into clear, scalable user experiences through structured flows, prototyping, and close collaboration with architects and product teams. Strong focus on system thinking, consistency, and improving team efficiency.

Experience

UX Designer | Nokia

Jan 2024 — Present

- ▶ Designed end-to-end user experiences for complex product features
- ▶ Collaborated with architects and product teams to co-create and validate solutions
- ▶ Translated product requirements and epics into structured user flows and design solutions, covering edge cases, improving clarity and reducing user effort across complex tasks
- ▶ Facilitated kick-off meetings to align feature scope, flows, and expectations
- ▶ Developed frameworks to improve consistency and scalability across the product
- ▶ Collaborated with product managers on prototyping initiatives, delivering high-impact MVPs
- ▶ Conducted UX/UI QA to ensure product design consistency and quality
- ▶ Mentored and onboarded new members, supporting integration and knowledge sharing
- ▶ Improved team efficiency by organizing a master file with product screens, patterns and components
- ▶ Simplified complex user flows by reducing interaction steps and improving task completion
- ▶ Leveraged AI tools to accelerate UX writing, ideation, and early solution exploration

Graphic Designer | MinhoBrinde, Advertising Agency

Aug 2021 — Apr 2022

- ▶ Created print and merchandising designs for clients
- ▶ Collaborated with clients to define design requirements
- ▶ Worked with production constraints and printing techniques

Graphic Designer | Socialized, Digital Marketing Agency

Nov 2020 — Feb 2021

- ▶ Designed digital platforms and UI assets
- ▶ Developed visual brand identities and improved image edition skills;

Education

Digital Experience Design | Postgraduate Course
